Staff Administrative Policy

Policy ID:	GVC-STA-006	Version:	1.0
Effective Date:	1 January 2026	Review Date:	1 January 2027
Document Status:	Active	Hospital:	Green Valley Community Hospital

Purpose

This policy explains internal administrative procedures for staff at Green Valley Community Hospital, including identification cards, attendance, leave requests, and shift change requests. It describes simple, fictional internal procedures and is not intended as formal employment law.

The intent is to give staff members a clear, consistent reference for common administrative tasks, so that requests are submitted correctly and processed without unnecessary delay.

Scope

This policy applies to all staff members of Green Valley Community Hospital, including administrative staff, reception staff, and department staff who interact with the administrative office.

It does not cover clinical protocols or department-specific training requirements, which are managed separately by each clinical department.

Staff Identification Cards

All staff members are issued a staff identification card when they join the hospital. The card should be worn visibly while on duty and is used to access certain staff areas.

Lost or damaged identification cards should be reported to the administrative office as soon as possible so a replacement can be issued.

Administrative Office Hours

Administrative office hours are 9:00 AM to 5:00 PM, Monday to Friday. Staff with administrative requests, such as leave requests or record updates, should visit the administrative office during these hours whenever possible.

Attendance

Staff members are expected to record their attendance at the start and end of each shift using the hospital's attendance system. Any issues with recording attendance, such as a system error, should be reported to the administrative office the same day.

Leave Requests

Staff leave requests should be submitted through the administrative office at least two working days before the requested leave date whenever practical. Requests can be submitted using the standard leave request form, available at the administrative office.

Leave Request Steps

- 1 Complete the leave request form with the requested dates and reason.
- 2 Submit the form to the administrative office or to the staff member's department supervisor.
- 3 The administrative office reviews the request and confirms approval, usually within two working days.
- 4 Approved leave is recorded in the staff member's attendance record.

For urgent or unplanned leave, such as sudden illness, staff members should inform their supervisor as soon as possible, even if the standard two-day notice cannot be met.

Shift Change Requests

Staff members wishing to change an assigned shift should submit a shift change request to their department supervisor, who will coordinate with the administrative office to confirm the change. Shift change requests should be submitted as early as possible to allow time for department scheduling adjustments.

Staff Records and Department Transfers

The administrative office maintains basic staff records, including contact information, department assignment, and attendance history. Staff members can request to review or update their own record by contacting the administrative office.

Requests for a department transfer should be submitted in writing to the administrative office, along with the reason for the request. Department transfers are coordinated between the current and receiving department supervisors.

Internal Communication

General announcements and administrative updates are shared through the internal staff notice board and, where available, the internal staff email list. Staff members are encouraged to check these channels regularly.

Workplace Conduct

Staff members are expected to treat patients, visitors, and colleagues with respect and to follow hospital procedures at all times. Concerns about workplace conduct can be raised confidentially with the administrative office.

Request Submission and Approval Process

Most administrative requests, including leave requests, shift change requests, and record updates, follow a similar basic process: the staff member submits a request, the administrative office or relevant supervisor reviews it, and a confirmation is provided once the request is approved.

Request Type	Where to Submit	Typical Response Time
Leave request	Administrative office	Within two working days

Request Type	Where to Submit	Typical Response Time
Shift change request	Department supervisor	Depends on scheduling needs
Record update	Administrative office	Same day, when possible
Department transfer request	Administrative office, in writing	Coordinated between departments

Administrative Support

The administrative office can assist staff with general questions about hospital procedures, staff records, and how to submit various requests. Staff members are encouraged to reach out whenever they are unsure about a process.

For questions that involve more than one department, such as a shift change that also affects a leave request already on file, the administrative office will coordinate directly with the relevant supervisors so the staff member does not need to submit the same information twice.

New Staff Orientation

New staff members receive a short administrative orientation during their first week, covering how to use the attendance system, where to collect their identification card, and how to submit common requests such as leave or shift changes. This orientation is arranged by the administrative office in coordination with the new staff member's department supervisor.

Responsibilities

The administrative office is responsible for processing leave requests, maintaining staff records, and supporting internal communication. Staff members are responsible for submitting requests in a timely manner and keeping their personal information up to date.

Department supervisors are responsible for reviewing shift change requests promptly and for making sure their team is aware of this policy, particularly for new staff members during their first weeks at the hospital.

Exceptions

Urgent or unplanned leave, such as sudden illness, is handled outside the standard two-day notice period, as described in the Leave Requests section. Other exceptions to standard timelines may be granted by the administrative office on a case-by-case basis.

Staff working in departments with unusual scheduling needs, such as rotating shift patterns, may follow a slightly adjusted leave notice period agreed in advance between the department supervisor and the administrative office.

Frequently Asked Questions

Q: How can staff request leave?

A: Staff should submit a leave request form to the administrative office at least two working days before the requested leave date, whenever practical.

Q: How are shift change requests submitted?

A: Shift change requests are submitted to the department supervisor, who coordinates with the administrative office to confirm the change.

Q: What are the staff administrative office hours?

A: The administrative office is open from 9:00 AM to 5:00 PM, Monday to Friday.

Q: What should I do if I lose my staff identification card?

A: Report the lost or damaged card to the administrative office as soon as possible so a replacement can be issued.

Q: How long does a leave request take to be approved?

A: Leave requests are usually reviewed and confirmed within two working days.

Q: How can a staff member request a department transfer?

A: Submit a written request to the administrative office, including the reason for the request; the transfer is then coordinated between the relevant departments.
